Filipe Trindade Duarte

Product designer / Vancouver, BC

I design products and websites that connect, engage and grow.

Previously at iQmetrix, I designed core mobile experiences for wireless retail software, contributing to a POS modernization that reduced checkout times by up to 50%.

EXPERIENCE

Product Designer JUL 2023 – FEB 2026 @ **iQmetrix** CHRYSALIS GROUP – VANCOUVER, BC

- Designed and prototyped core user flows for iQ Storefront, a mobile-first POS, contributing to up to a 50% reduction in device activation times.
- Defined the UX logic for the offline payment fallback for RQ Mobile, creating flows that safeguarded 100% of revenue transaction integrity during network outages.
- Modernized the legacy RQ enterprise POS suite, delivering new features and improvements while navigating strict technical constraints and documentation.

Brand & Web Designer APR 2022 – JUL 2023 @ **Ready** CHRYSALIS GROUP – VANCOUVER, BC

- Led the UI/UX design for Ready ServerSense, an AI proof-of-concept that integrated predictive upsells into the POS and validated AI-assisted restaurant service.
- Designed the ReadySMB product site, establishing a scalable landing page template that served as the foundation for the company-wide website redesign.
- Owned end-to-end creative production for the Ready brand, delivering consistent high-fidelity assets across digital ads, social media, and print collateral.

Brand & Web Designer JUL 2018 – OCT 2021 @ **Komuh** BELO HORIZONTE, BRAZIL

- Designed responsive websites for clients in high-complexity sectors, healthcare and real estate, translating dense industry requirements into intuitive designs.
- Created high-converting digital assets and promotional materials, aligning visual execution with marketing strategies to drive user engagement and brand consistency.

EDUCATION

Associate Certificate in User Interface (UI) and User Experience (UX) Design @ BCIT

Bachelor's Degree in Graphic Design @ UEMG, Brazil

Diploma in Business Management @ Sebrae, Brazil
